

Medicare Set-Asides

Comprehensive Solution. Optimized Results.

We offer a comprehensive suite of products designed to fully comply with the requirements of the Medicare Secondary Payer (MSP) Act. Our Medicare Set-Aside (MSA) solutions are tailored to your individual needs, as a robust response to the ever-changing obligations created by the MSP. We are committed to providing the highest quality evaluations and reports to expedite claim resolution regardless of complexity.

These offerings are a direct result of our proven experience in medical management, enhanced by our focus on evidence-based medical guidelines for treating work-related injuries. Analytics-informed medical cost containment empowers our team to proactively identify and address problematic cost drivers.

Aware of the importance of staying abreast of regulatory changes, we are actively engaged in the industrywide and nationwide conversation concerning the handling and impact of MSAs. As a result, payers avoid the pitfalls and financial burden of inflated settlement costs that accompany high set-aside allocations. We produce the lowest defensible medical allocation, supported by strong evidence-based documentation.

FEATURES

- Customized electronic intake workflow
- Medicare and Social Security disability verification
- Comprehensive MSA assessment
- Liability MSA assessment
- Submission of MSA to Centers for Medicare and Medicaid Services (CMS)
- Future medical allocations
- Non-threshold medical allocations
