

Liability Review

Expert Team. Successful Outcomes.

We credit innovation, customization and clinical excellence as the keys to our success. Our drive to continually develop new solutions empowers us to consistently exceed expectations.

Liability reviews are an opportunity to help clients as they negotiate settlements in general liability claims, with a focus on medical appropriateness and maximum cost savings. Our experienced nursing staff and proprietary software combine to produce superior reviews, yielding maximum savings.

Liability nurse specialists leverage their clinical expertise, exceptional attention to detail and superior analytical reasoning skills to ensure clients' outcomes are achieved.

FEATURES

- Chronological outline of medical events for the life of the claim
- Identification and separation of service charges by diagnosis
- Summarization and interpretation of medical bills
- Retrospective review of services for medical necessity
- Recommendation for strategic action plan based on medical management
- Identification and referral of claims that require a physician peer review

BENEFITS

- Identification of services unrelated to the claim
- Identification of services not supported by objective findings or non-emergent care
- Review and analysis of medical, dental, pharmacy, hospital, ambulatory care center insurance claims to ensure correct billing or payment consideration
