

Medical Bill Management

Innovation. Efficiency. Savings.

Our revolutionary approach goes far beyond processing and paying medical bills. From bill receipt to resolution, our national bill review solutions are comprehensive and tailored to the unique opportunities in each jurisdiction.

We provide savings below standard fee schedule reductions through multilevel negotiations, URAC-accredited nurse review, client-specific business rules and our proprietary Enforcer[®] tool. What sets us apart in the industry?

- Automated, electronic intake of medical bills and records in a virtual mail room
- Imaging, intelligent indexing and claims matching
- Code review and unbundling
- Line item hospital bill review
- Enforcement of utilization review determinations
- Secure, web-based approval process
- Strategic provider management with multiple networks, direct contracts and custom MPNs
- Automatic application of client-customized network discounts and negotiated discounts
- Negotiation strategy in high exposure states
- Powered by proprietary technology delivered by our sister company DataCare

FEATURES

- Bill tracking is transparent, with clear definitions of each reduction, including associated fees
- Adjusters can track individual bills at every step of the process
- Clients securely access bill status, Explanation of Review and related records online
- Customized workflow management
- Full-service state reporting

BENEFITS

- Enforcer[®] closes the gap between utilization review and bill processing, generating up to 20% savings beyond typical bill review.
- Total cost saving program demonstrates an average of 68% to 72% reduction of total charges.
- Strategic negotiations in usual and customary states or states without fee schedules for savings 12-13% higher than traditional PPOs
